1. Introduction

Mantano Reader for Android is an easy and intuitive program for viewing electronic books, and also pdf documents on every Android platform.

The application library will list all your downloaded documents. Some *management* options will help you to supervise all your electronic documents such as the *filter* or the *search* options.

With it, you will be able to start reading an e-book, have a break and restart at any time using your bookmarks or the *GoToPage* option.

Some display settings will make of your reading a pleasant and comfortable moment.

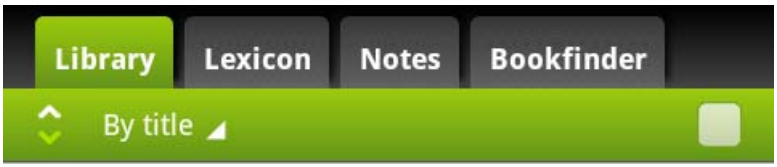
Any special thought while you are reading? Or any interesting lines on your pdf document? The *Notesbook* option will give you the opportunity to write or sketch a note. Alternately, on every pdf or epub document, you can use the *Highlight* option.

A direct access to the Bookfinder will help you to find and download any electronic book you want on your android device and import it in your Library.

2. Mantano Reader applications

Bookari reader gives access to 4 applications as shown in the *header screenshot*:

- Library
- Lexicon
- Notesbook
- Bookfinder



Two display options are proposed in the header as explained in the following table:

Icon	Description
	Sort the displayed list by the title, author or others with an alphabetical order
	Change the displayed order in an ascending or descending order
	Select / unselect all items

A toolbar and a search option are available for the Library and Notes applications:

For a quick and direct access to these options: click on your Smartphone menu option to get to the toolbar of the active application or on your Smartphone search button to get to the search option of the active application.

2.1. Library

The Library application lists all the files in pdf or epub formats stored in the device or in the SD card.

All these electronic documents are listed with some information:

- Title or File name, Author, Addition Date or Last Access, Expiration date for eBooks
- Tags (Please refer to the *next paragraph* for more information about Tags)

What are Tags and how to use them?

Tags are additional information given to a document for a quick identification. Managing tags on Mantano reader for Android is easy:

Click on under the document title to open the *Tags Management* popup.

Enter the tag name on the layout “Add a new tag”

Click on Close button to validate and save

The new tag will be added to the item tag list

To delete a tag, an easy click on near the tag name will remove it

Some options are designed to manage your documents list:
